ITC JOURNAL INDEX, NUMBERS 1 - 39

On behalf of the readers of the ITC Journal, its Editorial Board and Editorial Team I wish to express to Bruce Tracy, Ph.D. grateful thanks for preparing for all of us this essential tool that will enable our readers to find any paper and any author published in the journal since its commencement, in 2000, easily and rapidly.

A good Index is always a writer's aspiration and, personally, I am delighted to count on this new, valuable instrument for our publication. In its almost twelve years of existence, the ITC Journal has grown and, consequently, the number of articles has also built up. However, to manage and identify the contents of all the issues of our journal will be an enjoyable task from now on.

All of us involved in the fascinating field of ITC study and research are indebted to Dr. Bruce Tracy for his generosity and thoughtfulness in creating the new Index that will greatly benefit the ITC Journal.

Our colleague and friend Ann Harrison has formatted and laid out the document prepared by Bruce Tracy and I wish to express our grateful thanks to Ann for her smart work, as well. From his side, Carlos Fernández has designed the elegant cover for the Index and our appreciation goes to him, too.

Indeed, the ITC Journal is a common enterprise based upon love, understanding and cooperation. Thanks to all who have encouraged and supported it to grow throughout the years.

Anabela Cardoso
Editor

The ITC Journal is printed on 100% recycled paper This is not done for economy
(recycled paper is more expensive than new paper)
but to avoid the destruction of trees
